

LAUNCHPAD: ACADEMIC ENHANCEMENT PROGRAM

Strengthening Foundations in Math, Science & English

AUGUST 3 – 7, 2026 | ONSITE INSTRUCTIONAL DELIVERY

Languages & Literature Dept. • Mathematics & Statistics Dept. • Physical Science Dept.

Program Objectives

- 1 | Assess baseline competencies through a standardized diagnostic pre-test
- 2 | Identify learning gaps in understanding, application, and prerequisite skills
- 3 | Provide targeted support through expert-designed learning modules
- 4 | Measure learning gains using a rigorous post-assessment framework

Expected Outcomes

- 1 | Enhanced readiness for university demands
- 2 | Minimized foundational learning gaps
- 3 | Improved academic retention & performance

BATCH 1

MATH

August 3 (MON) - 8-5
August 4 (TUE) - 8-12

SCIENCE

August 4 (TUE) - 1-5
August 5 (WED) - 8-5

ENGLISH

August 6 (THU) - 8-5
August 7 (FRI) - 8-12

ROOM ASSIGNMENT INSTRUCTIONS

- The attached list contains your assigned rooms for the entire duration of the **Course Enhancement Program**.
- Each subject area (Mathematics, Science, and English) consists of one **12-hour onsite session** facilitated by a designated faculty member.
- To receive a **Certificate of Completion**, each student must complete **all three subject areas and take the post-test**.
- Each completed subject session will earn a corresponding credit toward one of your course assessments. Your session instructor will provide further details during your first meeting.
- Attendance will be strictly monitored to ensure full participation. A **15-minute grace period** will be observed before the start of each session. Students arriving beyond the grace period may be marked absent or subject to the program's attendance policy.
- All learning materials and handouts will be available through **Schoolbook**, while activity sheets will be distributed during each onsite session. Additional instructions will be provided by your instructor during your first meeting.
- University personnel will be stationed outside the session venues to assist you with room assignments, monitor class size and other related concerns.
