

COMMUNITY EXTENSION PROGRAM ACTIVITIES

Guided by the Lasallian values of faith, zeal and communion in service, the College of Engineering, Architecture and Technology (CEAT) in coordination with Lasallian Community Development Center (LCDC), is at the forefront of building partnerships with communities in Cavite that are in need of support in achieving social awareness.

The college adopted Barangay Tua in Magallanes, Cavite as the target beneficiary of its different outreach program and activities.

COMMUNITY OUTREACH AND EXTENSION SERVICES ACTIVITIES

- ***ORIENTATION SEMINAR OF MECHANICAL ENGINEERING (MEE) FOR THEIR OCULAR VISIT IN BARANGAY TUA***

Activity Description and Objectives

The College of Engineering, Architecture and Technology (CEAT), through its program councils and the Lasallian Community Development Center (LCDC), decided to adopt Barangay Tua in Magallanes, Cavite as their target beneficiary of their different outreach program activities and projects.

The Mechanical Engineering students, under the supervision of Engr. Wilfredo Vidal, have decided to do/ conduct a research on livelihood and environment. Two (2) groups volunteered to do the said researches and they will be preparing chapters 1-3 as academic requirement. The said students are expected to finish their researches. After which, they are expected to submit a copy of the research result to the said community, as well as to LCDC.
