

The College of Education (COEd) of De La Salle University-Dasmariñas (DLSU-D) is recognized as Center of Excellence in Teacher Education Program and Center of Training Institution by the Commission on Higher Education and Department of Education, respectively. Its programs were also awarded Level IV Accreditation by the Federation of Accrediting Agencies of the Philippines (FAAP) through the Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU). As a leading institution in teacher education, it offers a broad educational program that encompasses the development of educators both in the elementary and secondary levels of education. It aims to promote an educational system that will serve as a dynamic resource of the Church and nation in the process of social transformation instrumental to progress.

This summer 2018, the COEd offers its creative programs, “Certificate in Teaching Early Childhood Learners” (Level 1 - Basic Course and Level 2 - Advanced Course), short-term courses on specialized topics and concentrated coursework in teaching early childhood learners.

The Basic Course aims to help the participants:

1. acquire solid and substantial knowledge on child growth and development by exploring the universal processes children go through as they grow and develop in their physical, social, emotional and cognitive aspects;
2. develop creative and innovative skills in facilitating the teaching and learning process by developing, selecting, organizing and applying appropriate objectives, subject matter, instructional materials/ technologies, methodologies/ strategies/ techniques and assessment activities especially in developing the listening, speaking, reading and writing experiences for early childhood learners; and
3. gain comprehensive understanding on the importance of preschool counseling and classroom management by identifying effective ways in managing behaviors of early childhood learners especially those with learning disabilities, behavioral problems and other exceptionalities

The Advanced Course aims to help the participants:

1. increase their understanding and knowledge of child growth and development and identify how such realization can be utilized to support the holistic and optimal development of each child;
2. be more adept on a wide range of developmentally-appropriate experiences in order for children to develop their sense of self-worth, creativity, physical abilities, social skills, problem-solving, and critical thinking skills among others; and
3. be aware of the significant components that make up an effective and meaningful early childhood teaching.
