Transforming Giving into Lifelong Impact: Building a Culture of Shared Stewardship at DLSU-D

On December 16, 2025, De La Salle University-Dasmariñas (DLSU-D) through the Advancement and Alumni Relations Office (AARO) proudly welcomed Mrs. Kirtida Mekani, Director of CISTECH International (Singapore), for an exclusive learning session on “Transforming Giving into Lifelong Impact: Lessons on Resource Generation to Advance the Mission.” Her visit served as a powerful reminder that fundraising is not confined to one office; everyone in the community plays a role in this effort. When the entire community embraces this responsibility, giving becomes a shared culture that drives transformation.

During her visit, Mrs. Mekani met with the DLSU-D administration and the Basic Education Division. She also visited Bahay Pag-asa Dasmariñas, where she expressed her deep appreciation for the university’s mission to cultivate leaders grounded in competence, compassion, and commitment. She emphasized that scholarships are the backbone of education, aligning with Sustainable Development Goal 4 (Quality Education). Mrs. Mekani encouraged the development of sustainable giving frameworks that connect mission with action, supporting Sustainable Development Goals 10 (Reduced Inequalities) and 17 (Partnerships for the Goals).

Her insights on donor engagement, alumni involvement, and community-driven initiatives left a lasting impact. As we move forward, her message resonates: Let us build not just funds but futures; not just programs but people; not just institutions but a legacy of transformation, where generosity multiplies, leadership endures, and mission becomes movement.

DLSU-D IMPACT: “Industry Mechanism to Professional Access Through Career Transition”

On December 18, 2025, the Advancement and Alumni Relations Office (AARO) hosted a strategic meeting under the theme “DLSU-D IMPACT: Industry Mechanism to Professional Access Through Career Transition.” This initiative, part of the AARO’s 10-Point Agenda, reinforces the university’s commitment to ongoing collaboration with colleges in designing a structured framework that facilitates career pathways and enhances employment opportunities for students.

The session included the internship coordinators from the College of Business Administration and Accountancy (CBAA), focusing on bridging the gap from internship to employment and strengthening soft skills development. The insights shared during this discussion are vital for shaping an internship program that meets industry expectations and reflects the excellence of Lasallian education.

These efforts align with the UN Sustainable Development Goals (SDGs), specifically SDG 4 (Quality Education), SDG 8 (Decent Work and Economic Growth), and SDG 17 (Partnerships for the Goals). This alignment ensures that DLSU-D continues to prepare graduates for meaningful careers while promoting global partnerships and inclusive growth. It is expected that similar meetings will be organized with the remaining colleges to ensure a unified and impactful approach across the university.
