

UNIVERSITY HEALTH CLINIC HEALTH ADVISORY

MEASLES

Measles can be fatal. Know the symptoms.

Measles can cause severe, long-term complications.

STOP THE SPREAD OF MEASLES!

1

Use your elbow to cover your mouth when you cough or sneeze

2

Wash your hands with soap and water often

3

If you or someone you know has measles, it's important to stay home from school and other activities until the infection is gone

The best way to prevent getting measles is to get vaccinated. Talk to your parents and your doctor about getting the measles vaccine.
