Lady Despabeladero Lim

Introducing today's featured DLSU-D outstanding alumni scholar, Lady Despabeladero Lim, a remarkable graduate of BS Information Technology, Class of 2013.

Lim's journey is an inspiring tale of perseverance and achievement, fueled by the scholarships she received during her time at DLSU-D. She was a beneficiary of the SM Foundation Inc. Scholarship, an Academic Scholar, and a recipient of the City of Dasmariñas scholarship grant. These scholarships played a pivotal role in her educational success, allowing her to be the first in her family to graduate from college.

Currently, Lim holds the esteemed position of Global Designated Support Leader at NICE INCONTACT PHILIPPINES, a testament to her professional growth and expertise.

"I'm proud to be the very first in my family to graduate from college, and it's all thanks to the multiple scholarships I received from different institutions. During my college years, I had the privilege of being one of the scholars of Mr. Henry Sy Sr. through the SM Foundation Inc. While maintaining high grades, I worked diligently during Christmas and summer vacations. I experienced the challenges of working six days a week, often going home with numb legs from standing all day or walking back and forth to the storage room. My arms would ache from wrapping irregularly shaped and sized gifts for customers. Despite these difficulties, I persevered, excelling academically and supporting my family.

In the past, I dreamt of having a job with a desk and chair after graduation, hoping to escape the physically demanding work. However, I have achieved much more than that. Here are some of my professional achievements that I am most proud of:

- **Backlog Cleanup Project:** I led the aged support tickets backlog management of HCL Software and significantly improved our ticket closures by 8% each month.
- **New Hire Training:** I revamped, coordinated, and delivered process and soft skills training for new software engineers, eliminating the need for international assignments.
- **Hiring Activity:** I am personally committed to hiring and providing jobs in the Philippines. In my previous role with IBM, I hired 1 full-time Duty Manager. When our employment was transferred to HCL Software, I hired over 25 full-time Technical Support Engineers, ServiceNow Developers, and ServiceNow Administrators, contributing to the establishment of Manila's Security & DevOps Team. In my current position, I have already hired 9 Senior Technical Support Engineers in the Philippines within a year.

Miss Lady Despabeladero Lim's journey is a testament to the power of scholarships and the indomitable spirit that propels individuals to achieve their dreams. Her dedication, resilience, and professional achievements inspire us all to reach for greatness.
