URO CONCLUDES FIRST RESEARCH MENTORING WORKSHOP

The University Research Office (URO), in partnership with Languages and Literature Department, successfully concluded the first-ever Research Mentoring Workshop in DLSU-D involving the entire LLD and Kagawaran ng Wikang Filipino (KWP).

The mentoring workshop was facilitated by Dr. Jonathan Gochuico and sought to provide feedback and direction to proposed research topics of the faculty members. This was intended to align them with thrusts of the university towards academic excellence through research and globalization.

Faculty researchers were also tasked to fine tune their topics to maximize their potential for utilization beyond the four walls of the university.

Dr. Johnny Ching, Deputy Provost for Research, and Dr. Edwin Lineses, CLAC dean, spoke to the participants about the university and the college's research directions while University Research Office (URO) Director Dr. Jose Aims Rocina enjoined the LLD and KWP faculty to engage in collaborative research to help achieve the goals of the university.

LLD Chair Raymond Ibasco, for his part, shared that among the reasons his department requested for a comprehensive workshop was to provide faculty members with the time and motivation to engage in the endeavor.

DLSU-D REPS JOIN INCEPTION WORKSHOP ON STATE OF RIVER BASIN REPORT

Representatives from the Cavite Studies Center and University Research Office were among the participants of the Inception Workshop on the State of River Basin Report of the Imus-Ylang Ylang-Rio Grande Rivers held at the Bayleaf Hotel in General Trias, Cavite.

Dr. Michael Guyamin and Angie Chui joined participants from academic institutions, environment, policy, public safety, legal, and economic sectors who identified and analyzed the problems and potential actions to address the issues surrounding the river basin.

DLSU-D shared the results of its researches on the Imus River to help with the data collection for the completion of the State of the River Basin report.

CPE STUDENTS RECEIVE AWARD FOR FIREFIGHTING SYSTEM

Computer Engineering (CPE) students of DLSU-D made their mark on the national stage as they received an award for their groundbreaking project, ROOMBERO: Automated Emergency Fire Fighting System.

Developed by Andrei Lee, Royjones de Leon, Christian Vinarao, and Justin Compañero, under the supervision of their adviser Engr. Mark Montances and co-adviser Engr. Ferdinand Osorio, the project received high praise for its innovation and potential to revolutionize fire safety.

The project received the Outstanding Award for Research, Development, Innovation, and Invention during the 2nd Philippine Integrated Fire Protection Organization National Convention, held at the Development Academy of the Philippines in Tagaytay on September 6, 2024.

Animo La Salle!

FACULTY RESEARCHES SHINE IN ASIAN GRADUATE STUDIES SUMMIT

DLSU-D faculty Estrella Natalie B. Pineda's study entitled "Adoption of Additive Manufacturing Technology in Small and medium Scale Enterprises: A Technology Management Framework" was named the winner for the Business and Finance Management category at the recently held Asian Graduate Studies Summit 2024 in Chonburi, Thailand.

Meanwhile, another DLSU-D faculty Irish Polinga, together with her teammates Wilma M. Chu, and Renald Fio who worked on the study entitled "Raising Awareness for Conservation: A System Development of Heritage Structures Using Photogrammetry and 3D Rendering for Local Museum" was among the Research Incubation Grid's Approval Projects during the event.

The Asian Graduate Studies Summit 2024, with the theme "Integrative Solutions for the Future of Asia: Catalyzing Graduate Research for Sustainable Development" was organized by the Asia Pacific Consortium of Researchers and Educators Inc. and the Burapha University.

LCDC, MSD ALL SET FOR MENTORING WORKSHOPS

The Lasallian Community Development Center and the Mathematics and Statistics Department are set to hold special research mentoring workshops targeted towards generating more faculty researches for September and October.

The LCDC already embarked on a small group Baseline Study workshop in preparation for research projects the Center will conduct on two partner communities starting next month.

During the workshop, previous research team members shared their insights with the new researchers to ease data gathering and processing. URO Associate Director Gideon Legaspi facilitated the training on writing and tool development.

Meanwhile, the Mathematics and Statistics Department is set to join a research mentoring workshop with the faculty members of the College of Criminal Justice Enforcement next month on crime and data analysis of different localities in Cavite. This is in response to consultations made with LGUs on the priority needs of their localities.

INNOVATIVE RESEARCHES TO BE CONDUCTED THIS SCHOOL YEAR

Lasallian faculty are ready to embark on exciting and innovative researches for SY 2024-2025. The researchers presented their topics and signed their contracts with the University Research Office at a formal event at the Ayuntamiento de Gonzalez Reception Hall.

Among the faculty researchers for this year are:

Promoting Social Responsibility to Higher Education through Religious Education Courses: A Qualitative Study: Dr. Henry L. Bernardo, Dr. Gladiolus Gatdula, Dr. Marnon Regis

Public Awareness Survey on Waste Segregation in Selected Areas of Silang, Cavite: Carmela Z. Reyes / Dr. Edna T. Mercado

Ang Kasalukusuyang Kalagayan ng Industriya ng Paghahalal sa bayan ng Maragondon at Indang, Kabite: Dr. Jesus Medina, Heidi Sarno, Maritess Velado

Mapping the Creative Economy in the Philippines: The Case of the Province of Cavite: Dr. Jan Phillip D. Mallari, Dr. Jose Alejandro S. Tenorio, Dennis B. Maldo

The Impact Mechanism of ESG and Financial Performance, Role of CEO, and Audit Quality in Philippine Listed Companies: Dr. Elma L. Mallorca / Dr. Leo D. Manansala

The Forgotten South: Factors that Impeded the Development of Simunul, Tawi-Tawi: Dr. Emmanuel F. Calairo

Examining Supreme Court Decisions in Cases of Teacher Misconduct and Immorality: Frederico B. Besa Jr.

Microwave-assisted Biosynthesis of Selenium Nanoparticles using Carabao Mango Leaf Extract and Evaluation of Their Anti-microbial Activity: Gideon A. Legaspi, Susan Sta. Ana, Engr. Ma. Jeanette Obias, Dr. Kareen Lopez

Mediating Role of Social Support between Regrets and Quality of Life among Filipino Lasallian Retirees: Dr. Jemerson N. Dominguez

More faculty researches are expected in the coming months with new collaborators and partners.

De La Salle University-Dasmariñas (DLSU-D) recently joined Higher Education Institutions (HEIs) members of the Southern Tagalog Agriculture, Aquatic and Resources Research, Development and Extension Consortium (STAARRDEC) who travelled to Thailand to benchmark R&D institutions in the Agriculture, Aquatic and Natural Resources sector.

University Research Office Director Dr. Jose Aims Rocina represented DLSU-D as the delegation visited the Kasetsart University Institute of Food Research and Product Development, Kasetsart Rice Science Center, National Agricultural Extension Training Center, Tropical Vegetable Research Center, Kampaengsen Fisheries Research Station where they were informed of research endeavors and possible commercialization potentials being undertaken by the institutions.

A Memorandum of Understanding was signed between KU and STAARRDEC at the end of the week-long activity.

**JOURNAL OF ENGINEERING,
COMPUTING & TECHNOLOGY**

CALL FOR PAPERS

The Journal of Engineering, Computing and Technology (JECT), a peer- reviewed journal of De La Salle Unieversity- Dasmarinas, is now open for submission of research articles for its maiden issue. The articles will be evaluated through a double-blind review with focus on quality, novelty and significance.

TOPICS

- Engineering
- Technology
- Computer Science
- Information Technology
- Architecture

SUBMISSION

The article to be submitted must be:

- in MS Word format.
- written in accordance with the IMRD format
- research papers are evaluated and accepted all year round
- sent as an e-mail attachment to ject@dlsud.edu.ph

*all communications related to paper submissions will be done through the journal's official e-mail stated above.

Director's Corner

Dr. Jose Aims Rocina

It is the goal of the University Research Office (URO) to establish a profound and yet meaningful culture of research in our university. With a mere twenty percent (20%) of the DLSU-D faculty engaged in research; the need for the faculty, especially new ones to engage in this endeavor is paramount. Why? The Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU) mandates that at least thirty (30%) of each department in a university must engage in research. Unfortunately, some departments are minimally engaged and others, even nil.

Thus, we appeal to all department heads to call on their faculty to make an effort to engage in research. We cannot rest on past laurels. Slowly but surely, competition has slowly crept upon our achievements with newly established schools around us.

The URO will unceasingly continue to pound on your doorsteps to increase our research capabilities. We will provide all opportunities for you to take the research plunge. And yet, we can only do so much, for the key still lies in you. Without your cooperation our efforts will just go to waste. Without your participation, we are just empty cymbals clanging in the desert.

In this light, we encourage all faculty members to fill-up their Individual Research Plans (already sent to you via e-mail) with a sincere heart and religiously fulfil its contents. Let us enroll ourselves into the Google scholar website and procure ORCID numbers as researchers. This is our first step to become part of the research community aside from building up our research confidence and profiles.

On a final note, we are still praying for you to invite us into your sacrosanct spaces, to keep you abreast of our thrusts and goals and for us to assist in any way we can for you to come up with research ideas and disseminate the outputs that come from these endeavors. We will not tire and we will not tarry, for we believe in your talent and we know you have what it takes to excel. Animo!
